

Industry-Institute Cell

An Industry-Institute Cell (IIC) was established in the year 2021 in order to promote regular interaction between the Experts from industry and the faculty members of MANUU Polytechnic Kadapa. The objective of this Cell is to strengthen the relationship between industry and our institute, provide an excellent platform for both the students and the faculty members to be aware of expectations of the industry from the budding engineers. IIC also serves as a podium to showcase the best practices, latest technologies in industry stand point and their implementation.

OBJECTIVES:

- To explore and identify common avenues of interaction with the industry.
- To facilitate the mandatory Summer Internships and Training of the students in various companies / skill development centers.
- To give industrial exposure to Faculty members and students, thus enabling them to update their knowledge to cope with the latest industrial demands.
- To promote various research activities among the faculty members and students through continuous interaction with the experts from the industry.
- To establish convergence with industrial and research organizations from various fields through Memoranda of Understanding.
- To promote industry experts to continuously partake in Curriculum design and career development programs which play a significant role in honing the skill set of the students.
- To coordinate in organizing Workshops/Seminars on trending technologies by experts in the field.
- To organize industrial visits for Faculty members and students.
- To coordinate/ identify industrial partners for proposing Skill Hub / Skill Development Centre.
- To assist the training and placement activities of the institute.

Constitution of Industry –Institute Cell Committee
