

## Lecture Series

The Centre has established a Lecture Series Programme (LSP) and the Monthly Lecture Series Programme (MLSP) under which well known personalities of research and administration and the civil society networks shall be invited to deliver lectures on the topics covering the social exclusion. The objective of these programmes is to sensitize the campus community on the social exclusion issues and to evolve a debate on the particular subject seeking further research interest and policy support concerning the issue. The speakers invited are from different places in the country and also from the international bodies. The Centre and its faculty also share their thoughts over the issues so to understand the commonalities involved in the issues across India and other countries. Also the Centre has its own forum of debate within the Centre faculty members who often sit the round table to discuss and share the ideas about the issues of social exclusion and various inclusive policies.
